

Sydney Startup Hub Event Guide

Who We Are

The Stone & Chalk Group is the largest innovation community in Australia, with a mission to create a more sustainable, tech-driven economy. We work to support our community of startups, scaleups, corporations, and governments through events, programs, advocacy, and partnerships.

At Stone & Chalk we can bring your events to life, whether you're looking for expert support to turn your idea into a reality or just the right space to activate your event.

Located in the hearts of Sydney, Melbourne and Adelaide, our four hubs are purpose built to offer endless event opportunities while tapping into the ingenuity of startups and the big players in emerging tech.

Choose from a range of different spaces to suit your individual event needs, whether it's a small intimate gathering or something on a larger scale. Our event managers can work with you to find what works best.

Spaces

All of our event spaces have been architecturally designed to promote connection and collaboration between teams, clients, and customers.

Experience an electric innovation culture that functions at all levels to foster creativity, learning, and community.

Providing end-to-end support, our team is invested in the success of every event that we host. Prior to your event we offer a site visit to discuss your requirements and to plan the setup, leaving no detail to the last minute. All events have a dedicated team member onsite to welcome your guests, run the AV system, and ensure the smooth running of your event.

Host your event at Stone & Chalk and take the opportunity to find out what's new across the Stone & Chalk community, and the larger emerging tech ecosystem. This is Australia's home for emerging tech, and a great place to connect with future industry leaders.

Bindimaps

We're proud to say that we have Bindimaps installed on our whole 4th floor at our Sydney Startup Hub. BindiMaps is a mobile app that locates users precisely in indoor spaces. It uses a simple, natural language audio system to describe where users are and what's around them, and the best way to get to their chosen destination.

To find out more about Bindimaps, or to download the app, please visit [here](#).
